Smartech™

## **Welcome to Smartech**

Smartech – Creators of vertically moving doors, windows, and walls. Premium-built systems that are fully customized to open spaces that feel just right for you! Now manufacturing premium mirrors that effortlessly augment both indoor and outdoor areas. Create the perfect aura of opulence when decorating your home with Smartech’s new Arizona Mirror. The new Arizona Mirror will transform your home or outdoor space and will lend an air of elegance and sophistication to your home. Using only the highest quality of materials sourced from reputable Australian suppliers.

We take pride in all the products we manufacture ensuring you get the very best product that is made to last for many years to come. All Smartech products are designed and manufactured in Australia to Australia’s highest standards.

Smartech offer high quality and technically superior products, excellent consulting service, technical know-how as well as an uncompromising focus on design, safety, and convenience.

## Smartech Mirror Range

Minimal and contemporary, our design encompasses a sleek frame and gleaming glass that reflects light beautifully across the room. With a collection of classic neutral finishes to choose from, Smartech's mirror range elegantly complements any palette.

Reveal space with a Smartech mirror, the newest addition to enhance your area's aesthetic.

## Frame and Fittings

Engineered using the same signature Smartech aluminium frames as our garage doors, you can be assured that our mirror range embodies the superior quality that underlies all Smartech products.

Internal stainless steel corner stake plates to hold the frame together. Sturdy and constructed to last, the frame is fastened with special mono bolt rivets that are designed to never come loose.

Held securely in place by double sided adhesive and neoprene rubber, the mirror panel is 6mm thick and affords crystal clear reflection.

Designed to withstand the elements, our mirrors can be installed in all sorts of internal and external settings. For application in corrosive coastal environments please inform our specialist team – a super durable polyester thermosetting powder coating will be used to ensure longevity.

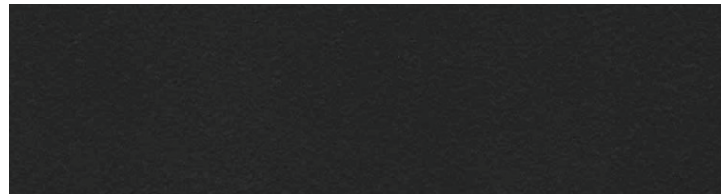

## Finishing Options

Choose from our selection of classic finishes to suit any aesthetic and environment.

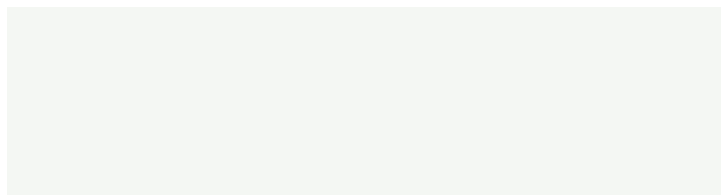

### **Royal Oak Wood Grain Finish by Altwood**

- Sustainable wood alternative
- Corrosion Resistant
- Non-combustible
- Non-warping, long lasting
- Australian made
- 100% recyclable

### **Mannex Black Powder Coat by Dulux**

- Textured finish
- Pearl vein ripple effect
- Tough polyester thermosetting powder
- Hard wearing
- Suits general interior conditions and mild exterior conditions

### **Appliance White Powder Coat by Dulux**

- Solid colour
- Advanced super durable polyester thermosetting powder
- Extremely hard wearing
- Suits general and moderate interior conditions and mild, severe and tropical exterior conditions

We also offer a customised service for our mirrors. Therefore, if you know the colour and size you like, please contact our customer service team for a quote.

## Installation

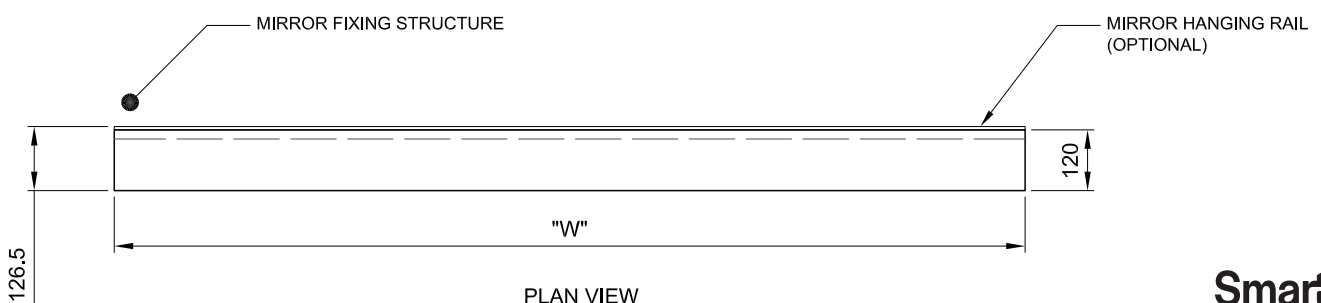

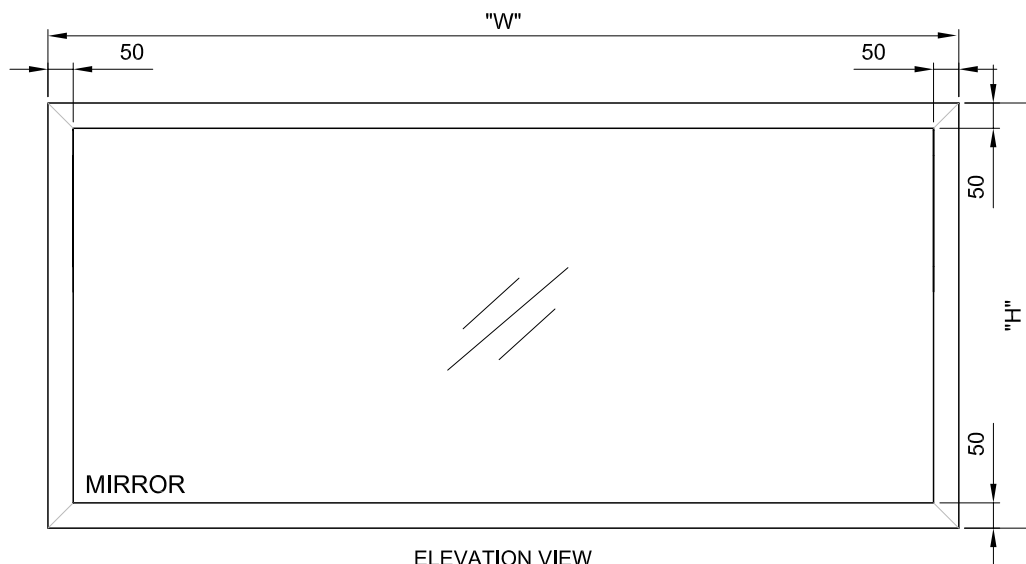

Smartech has developed an effortless installation system. We offer an optional wall bracket accessory that makes mounting mirrors a breeze.

The aluminium mounting system allows a rail on the back of the mirror to simply hook over the corresponding wall bracket. Holes are pre-drilled in the wall bracket at 450mm spacings\* and screws are supplied.

\*Please note that standard 450mm spacings are based on standard internal walls of a house. Pre-drilled holes and rail length can be customised depending on the application. Please advise our expert team of engineers to discuss your requirements.

Size and Weight Specifications			
Height	Width	Depth*	Weight
